

Mileage Glutton

A Triumph eats up distance with ease, thrives on *going places*. You don't pamper a Triumph. Just twist the throttle open and you'll open up new worlds of fun for yourself. See the countryside from a new dimension, that of two-wheeled "flight." A Triumph all but flies over the road's surface, will give you an independence and freedom you never thought possible before. Get in on the fun and go

places, extend your range, shrink distances! See your nearest Triumph dealer for details. Write, too, for free color catalog. Dept. AM.
